

AMENDMENTS TO THE CLAIMS

1. (Original) An electronic apparatus for obtaining and memorizing image data representing an image and displaying the image represented by the memorized image data, comprising:

a memory for memorizing, in addition to the image data, an attribute about a dimension of the image represented by the image data depending on whether the obtained image data represents a two dimensional image without parallax or a three dimensional image with parallax.

2. (Currently Amended) The electronic apparatus ~~An electronic apparatus~~ as claimed in claim 1, further comprising:

a communications section for connecting to the Internet and obtaining the image data ~~therethrough~~.

3. (Currently Amended) The electronic apparatus ~~An electronic apparatus~~ as claimed in claim 1, further comprising:

a camera for photographing the image so that the image data is obtained by the camera.

4. (Currently Amended) The electronic apparatus ~~An electronic apparatus~~ as claimed in claim 1, further comprising:

an input section for inputting audio;

an output section for outputting audio; and

a communications section for transmitting and receiving audio,

wherein the electronic apparatus functions as a telephone.

5. (Currently Amended) An electronic apparatus for obtaining and memorizing image data representing an image and displaying the image represented by the memorized image data, comprising:

a memory for memorizing, in addition to the image data, an attribute about a format of the image data and an attribute of copyright information.

6. (Currently Amended) The electronic apparatus ~~An electronic apparatus~~ as claimed in claim 5, further comprising:

an input section for inputting audio;
an output section for outputting audio; and
a communications section for transmitting and receiving audio,
wherein the electronic apparatus functions as a telephone.

7. (New) The electronic apparatus as claimed in claim 1, wherein the memory further stores a thumbnail image data of image.

8. (New) The electronic apparatus as claimed in claim 1, wherein the memory further stores an attribute of copyright information.

9. (New) The electronic apparatus as claimed in claim 8, further comprising:
a controller; and
a communications section for sending an e-mail,

wherein the controller prohibits the image to be attached to the e-mail when there is copyright information associated with the image.

10. (New) The electronic apparatus as claimed in claim 5, wherein the image includes formats for a 2D image, a 3D image, and an electronic animation in 2D image or 3D image.

11. (New) The electronic apparatus as claimed in claim 5, further comprising:
a controller; and
a communications section for sending an e-mail,

wherein the controller allows the image to be attached to the e-mail only when the attribute is JPG format and there is no copyright information associated with the image.
